Importance: High

Reminder for tomorrow's meeting (per below)! Nobody has declined to attend, so I'm assuming you all are. Please respond ASAP if you do not plan to attend this meeting.

Thanks-
Tom

All-

Please plan to attend a meeting to discuss potential Early Actions at the Arco/BP Portland Harbor site on **May 4th at 10 AM at DEQ NWR** (conf. room E, finishing no later than noon). I understand that this meeting time is agreeable to all of you, so please let me know if you cannot attend.

Arco/BP will present their plans to install a new shoreline sheetpile containment wall and associated interest in removing contaminated sediment beneath the existing riverward seawall and nearshore in-water sediment as part of an Early Action. The primary objective for the meeting is to start a dialog between Arco/BP and EPA concerning the plausibility, timing, and coordination of a potential in-water Early Action at their facility.

Thanks-
Tom
